*** A quick note on the Alberta natural gas rebate program ***
since Albertans are the owners of most of the province’s energy resources,
there was a \$3.25/GJ natural gas rebate for March—
which saved the average Alberta household over \$50 on their natural gas bill.
*(This program runs from October to March & provides assistance
when natural gas bills are at their highest. On average,*

Albertans pay less for natural gas than other Canadians, even before factoring in rebates.)
